

# 1<sup>st</sup> International Winter School on Evolution

Preparing a Future Generation for Interdisciplinary Evolution Research

Ciência Viva Knowledge Pavilion, Lisbon, Portugal

March 11<sup>th</sup> – 15<sup>th</sup>, 2013

*The International Winter School on Evolution aims to better prepare a future generation for inter- and transdisciplinary evolution research by providing courses on cutting edge research in biological and sociocultural evolutionary sciences for Master, Doctoral and Postdoctoral students. Emphasis lies on topics that are currently underrepresented in (post)graduate curricula.*

## Course Program

Monday to Friday	Macroevolution & Major Transitions	Language Evolution	Symbiogenesis, LGT & Hybridization
09.00-11.00	Bruce Lieberman	William Croft	Douglas Zook
11.30-13.30	Folmer Bokma	Mónica Tamariz	William Martin
15.30-17.30	Eörs Szathmáry	Daniel Dor	Michael Arnold
Monday evening: 18.00-20.00: poster session with reception			

## About the Courses

All courses are taught at a level accessible to students in the exact, life, human and sociocultural evolutionary sciences. Students of evolutionary biology, microbiology, paleontology, evolutionary linguistics, evolutionary anthropology, and philosophy of biology will especially benefit from these courses.

You are free to either enroll for a specific module (and therefore to follow a 30-hour course on the subject taught by 3 teachers) or you may choose to enroll for 3 specific courses (10 hours per course), regardless the module they are classified in.

## Enrollment and registration

The School is open to International Master, PhD and Post-doctoral students. Registration is continuously open from **September 15th**, until **February 15th, 2013**.

The registration fee is **350 euro**. Travel and accommodation are not included.
